

goldor' mosaico

International top class mosaic in real glass

The decision for goldor' mosaico glass mosaic is always a step towards distinctive individuality and a great variety of design options for any project - whether wet areas, a purely representative ambience, whether floors, walls, columns or ceilings, small or large surfaces, straight or curved, square or rounded. Design and panelling with goldor' mosaico leave room for manifold variations. The versatility of the range as well as quality and reliability of our delivery service have been internationally approved, emphasizing the special, leading position of this brand.

Mosaic and in particular real glass mosaic is given life by the interaction of colours, forms and shapes. Based on these three components, the most beautiful **design variations** in glass mosaic can be created. The goldor' mosaico program sets the stage for this.

Plain patterns or eye-catching, colourful ones or others that stress clarity of expression or still others featuring intricate luxury – nothing is impossible, there are almost no limits set in respect of creativity and design ideas. The goldor' mosaico team ensures a careful realization at short notice.

Besides the production of the design proposals presented on these pages, goldor' mosaico is primarily engaged in the manufacture of individual design creations based on customer demands and their drafts/layouts.

goldor' mosaico tiles are manufactured per order in individual blends, optionally on paper or transparent film (30 x 30 cm). When it comes to the desired colour gradient and other formal requests regarding design or integration of figurative patterns, laying markers and numeration are available to facilitate further processing on site.

design variations

design proposals

This data sheet conveys a pre-selection of current design variations. Defining your own design compositions is facilitated in this way, resulting also in shorter delivery times.

Creative and individual compositions

Beyond the scope of the presented pre-selection, goldor´mosaico produces individual glass mosaic design composition according to out customers' preferences. What is required in this case is a design model or information about the mixing ratio of the desired glass mosaics. The goldor´mosaico website provides a special Mix Generator that facilitates the creation of individual compositions, giving your creativity free reign.

technical properties

The technical properties are the result of the individual mixing ratios.

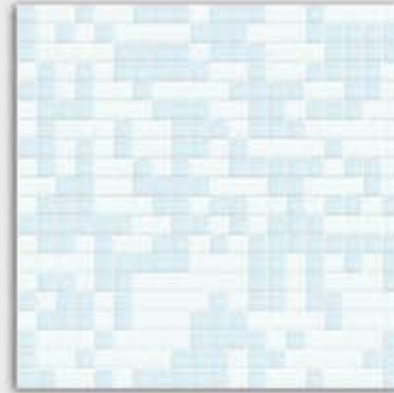

DIN 51097
Anti-slip properties

Certification B for wet areas
(C for wet areas available at an extra charge)

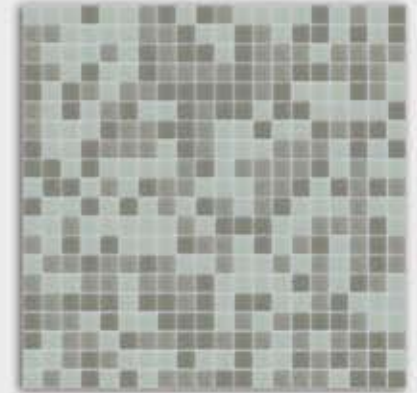

sizes and weights

Glass mosaic (tessera) sizes	20 x 20 x 4 mm
Pre-packaging	Front side paper-faced (foil-faced possible)
Width of joints (standard) Ready-made tiles size Ready-made tile per m ²	1.5 mm 322 x 322 mm 10 pieces = 1.03 m ²
Width of joints (special design) Ready-made tiles size Ready-made tile per m ²	1.0 mm 317 x 317 mm 10 pieces = 1.00 m ²
Width of joints (special design) Ready-made tiles size Ready-made tile per m ²	2.0 mm 327 x 327 mm 10 pieces = 1.07 m ²
Item order number	MS - in addition articlecode (example: MS - MS.101)

individual design requests

In this case, a selection is made from the *jewellery*, *veneziano*, *opalino*, *golden plate*, *golden premium* and *white golden premium* series, which are perfectly matched and in harmony.

Following this, the desired series, colours, and shapes and their percentages in the finished glass mosaic design are defined by the customer and are confirmed on placing a production order.

The following steps are required to create your individual goldor´mosaico glass mosaic:

1. Selection of one or more series
2. Selection of colours and sizes/formats (item number)
3. Defining the percentage of the particular item numbers in the final mosaic (100%)*
4. Ordering of this individual, own glass mosaic creation
5. Manufacture at goldor´mosaico and delivery
